

# California OES Weather Threat Briefing

Friday, April 26, 2019  
9:00 AM PST

**Day 1: Moderate heat risk in the deserts of the Southern Region for those who are sensitive to heat. Isolated thunderstorms are possible over the mountains across the state, especially the Sierra.**

**National Weather Service**  
*Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT*

# **WEATHER KEY POINTS**

**04/26/19 - 05/02/19**

## **Friday-Saturday**

- Warm conditions will continue melting of snowpack and lead to rises in rivers and streams. No significant flooding impacts are expected at this time.
  - Much of the state will have low risk for heat impacts for those populations extremely sensitive to heat, especially those without effective cooling and/or adequate hydration.
  - Moderate risk for heat impacts for those who are sensitive to heat in the deserts of Southern Region.
- Isolated thunderstorm potential over mountains across the state, especially in the Sierra.

## **Sunday-Tuesday**

- Next significant chance for showers and thunderstorms will be Sunday through Tuesday.
  - Rainfall chances currently look highest across the southern half of the state.
  - This storm could also be accompanied by gusty winds, especially in Southern Region.
- By Sunday and into early next week, a cooling trend will lead to significantly fewer impacts due to heat.

## **Wednesday-Thursday**

- Drier and somewhat warmer weather currently looks to return for the middle of next week
